

ENGAGE Georgia

As of March 2022, GSCS enrolled in [Engage Georgia](#) – Student Attendance and Engagement Recovery program – with all funding provided by the Georgia Department of Education.

Engage Georgia is a state-wide program offered to Georgia's local education agencies (LEAs) to assist schools and families with student engagement by providing intensive outreach, engagement and enhanced support for eligible students in grades K–12.

GSCS will identify students who need help to re-engage with school, based on attendance and academic data. Engage Georgia will provide our identified students with an Academic Success Coach who will answer their questions, connect them with resources and develop plans with them to help them stay on track and engaged with their schooling.

The student intervention experience through Engage Georgia entails a combination of a) outreach from an assigned Academic Success Coach through phone, email, text, social media and US mail; b) risk assessment support and completion; c) Academic Success Coach assignment, personalized education success plan development and on-going support and communication. The program is also available to students during the Summer 2022 months for those families who wish for the support to continue during that period of time.

If you wish to enroll your children to participate in the Engage Georgia Program, please contact ENGAGE Georgia at (404) 618-1106, or email them at EngageGA@graduationalliance.com
